Suggested working hours are suggested on the basis of the list of safe crossing times produced by Northumberland County Council

(<http://orawww.northumberland.gov.uk/www2/holyisland/Holyisland.asp?dt=0717>)

These crossing times are a guide only and naturally err on the safe side, so it is usually possible to cross safely some time before and after the guide times. However, it is advised that no crossings should be attempted after the guide time on incoming tides and crossings should only be made on outgoing tides when it is clearly safe to do so and when other vehicles can be seen crossing ahead of you.
